

Manufacturing Indaba Supports Manufacturers with Innovative Energy Solutions

Johannesburg, South Africa – 09 September 2024: The [Manufacturing Indaba](#) is proud to announce a dedicated focus on supporting manufacturers with innovative energy solutions at this year's event, taking place on 22 – 23 October 2024 at the Sandton Convention Centre in Johannesburg. This initiative aims to empower the manufacturing sector with the tools and knowledge needed to enhance energy efficiency, reduce costs, ensure security of supply and to promote sustainability.

Empowering Manufacturers with Energy Solutions

Energy efficiency and sustainability are critical components of modern manufacturing. The Manufacturing Indaba will provide a comprehensive platform for industry leaders, energy experts, and technology providers to share insights and solutions tailored to the manufacturing sector's unique energy needs.

Key Focus Areas

1. **Energy Efficiency:** Highlighting strategies and technologies to optimise energy use in manufacturing processes, thereby reducing costs and environmental impact.
2. **Renewable Energy Integration:** Exploring the potential of integrating renewable energy sources, such as solar and wind, into manufacturing operations.
3. **Innovative Technologies:** Showcasing cutting-edge energy solutions, including smart grids, energy storage, and automation technologies that enhance energy management.
4. **Sustainability Practices:** Promoting sustainable practices and frameworks that help manufacturers achieve long-term energy and environmental goals.
5. **Financial Models and Incentives:** Discussing funding options, incentives, and financial models to support the adoption of energy-efficient and renewable energy solutions.

Event Highlights

- **Panel Discussions:** Engaging panels on practical approaches to implementing energy-efficient and sustainable practices in manufacturing. The panel discussions will feature leading experts in energy and manufacturing discussing the latest trends and innovations in energy solutions.
- **Exhibitions:** Showcasing state-of-the-art energy solutions and technologies from leading providers on the exhibition floor.
- **Workshops:** Offering hands-on workshops and training sessions on energy management and sustainability practices in the Exhibition Knowledge Hub.
- **Networking Opportunities:** Facilitating connections among manufacturers, energy experts, and solution providers to foster collaboration and innovation.

Enhancing Competitiveness and Sustainability

By adopting advanced energy solutions, manufacturers can significantly enhance their competitiveness and contribute to a more sustainable future. The Manufacturing Indaba aims to equip manufacturers with the knowledge and resources needed to navigate the evolving energy landscape and achieve their energy and sustainability goals.

Join Us

We invite all manufacturers, energy experts, and industry stakeholders to join us at the Manufacturing Indaba. Together, we can drive the adoption of innovative energy solutions and promote a more efficient and sustainable manufacturing sector.
